

POWER BI

FROM DATA TO DECISIONES

Flow of Power BI

- 1  Connect your data with Power BI Desktop
- 2  Transform and model your data with Power Query and DAX
- 3  Design reports that turn into action
- 4  Publish to the cloud your .pbix file
- 5  Share with your team, manage permissions and updates

Power BI enables you to turn data into decisions. Desktop to create. Service to collaborate.
